Tools:	Git, Visual Studio, VS Code, xUnit, Moq, Jest

PROFESSIONAL EXPERIENCE

Frontend/Full Stack Engineer

Outmatic | December 2022 - Present

- Developed and maintained CMS web applications and e-commerce platforms using React, ChakraUI, and .NET Core
- Implemented product configurator tools and third-party integrations with Klaviyo and Odoo ERP
- Designed and developed RESTful APIs with comprehensive validation and error handling
- Created robust unit testing strategies using xUnit and Moq, improving code reliability
- Worked with complex SQL database operations and Entity Framework relationship configurations
- Debugged authentication middleware and implemented secure password reset features

DevOps Engineer

Nexum AI | Previous Role

- Implemented and maintained CI/CD pipelines using GitLab CI/CD and Terraform
- Managed containerized applications with Docker and Kubernetes
- Deployed and monitored applications on Google Cloud Platform
- Automated infrastructure provisioning and configuration management
- Collaborated with development teams to optimize deployment processes

EDUCATION & CERTIFICATIONS

Google Cloud Professional Cloud DevOps Engineer
- Advanced certification in cloud DevOps practices and automation

Google Cloud Associate Cloud Engineer
- Certified in cloud infrastructure and services

Oracle Certified Associate, Java SE
- Certified in Java programming fundamentals and best practices
